Welcome! Glad you're here. Paradise Garden Club Inc (PGCI) brings gardeners together for the fun of sharing our joy of gardening while learning new skills. Along with our gardens, we cultivate friendships in the belief that "Coming together is the beginning; working together is progress; staying together is success." Your involvement increases the strength and growth of our outreach in the Paradise community. By the way, joining PGCI makes you a member of the California and National Garden Clubs as well. (Ask us how that works!)
